

Pharmacy

Pharmacists are highly trained experts and fully qualified to give health advice on a range of health issues including:

- Aches and pains
- Allergies
- Colds and flu
- Ear care
- Eye care
- Headaches
- Hay fever
- Stomach aches
- Skin or mouth problems
- Head lice

If you need urgent repeat medication, you should contact NHS 111 who will arrange for you to collect your medication from a local pharmacy.

Search NHS choices for your nearest pharmacy:
